The new T2TB2 casing

offers an OPTIMAL BALANCE

between PERFORMANCE and COST

It is designed as a smart innovative solution combining advantages of our premium T2TB1 casing and standard T2TB3 casing. The result is a well-engineered solution that achieves excellent classification values

— T2,TB2, D1, L1 —

while remaining only **slightly more expensive** than the basic T2TB3 version. This makes T2TB2 a highly attractive option for projects where both **thermal performance and cost-efficiency** are key.
